Supporting Processes. Problem Solving and Creativity.

On a daily basis, within prescribed school guidelines and under the direction of the teacher, develop a range of strategies to engage individuals and groups of pupils, often with differing requirements, in the experience of learning and in their personal, social, health and moral education. For example, a reward system appropriate to an individual pupil.

Use a variety of interpersonal techniques to establish and support relationships with pupils, parents and carers.

Additionally, creativity energy and innovation are needed to meet the special education and care needs of all pupils, such as those with substantial physical disability, substantial emotional difficulties, regular exhibitions of challenging behaviour including aggression.

Decision Making. The key aspect is that at this grade of post the TA is working under 'INSTRUCTION'.

- To assist in decision making about individual learning priorities (in partnership with the teacher and other TAs).
- Within the agreed school policies, guidelines and rules, decide on when and how to apply a range of strategies for the benefit of pupils relation to their education activities, behaviour and care. These decisions often need to be made immediately to deal with the situation presented.
- Guidance is normally readily available from teaching staff and more complex or controversial decisions will be referred to a teacher.
- There will be often a need to make immediate decisions, without initial referral to teachers, in relation to immediate care, control and safety of pupils with special education or personal needs.

Physical Effort and Working Conditions. A special school environment, although the job holder may be involved in external school activities, such as horse riding, swimming and educational visits.

- Most of the working day is spent actively involved and physically engaged, with periods of crouching / bending to engage pupils in activities.
- Substantial physical support is required on a regular basis, to give pupils access to the full curriculum, in providing assistance to pupils with significant physical disability, and in some cases to those who challenge behaviourally.
- There may be a need to physically lift pupils, to facilitate learning as identified in the school curriculum (eg, music, PE) and to attend to safety or care needs. Risk assessments, detailing agreed manual handling good practice will be available for each pupil presenting a physical risk in these terms (the production of which is school priority). Until such a time when these are fully implemented the general advice received in training sessions should influence manual handling practice, supported by advice from the physiotherapist.

There are regular physical risks associated with intervention in incidents of challenging behaviour, including aggression, which are encountered with pupils who have psychological needs and/or physical disabilities.

Contacts and Relationships.

- Contact with all staff in school to pass and receive information, advice, guidance, suggestions and ideas.
- Contact with Health Service professionals to provide support for the pupils with known medical conditions.
- To report summarised information to parents on, for example, pupil progress. Such communications can be of a delicate nature depending on a pupil's particular needs.

Additional Information.

While the level of pupil needs will vary from time to time, the job holder will be predominately working with pupils **who are especially difficult to engage in activities, may present more frequent behavioural problems** and where the attention span presents greater challenges and a need for high levels of patience to attain pupils' individual targets.

- A willingness to attend courses as required enhancing the knowledge, understanding and skills to improve the level and quality of support given to pupils and teachers.
- Knowledge of legislation and regulations applicable to the support and care of pupils.
- An education standard equating to GCSE Grade C in English and Mathematics, a minimum A-C/Point 4 or equivalent is essential. A qualification relevant to supporting the learning process in schools would be desirable. A suitable qualification for this post would be NVQ2.

It is vital that as part of Fiveways School's approach to safeguarding, governing bodies and proprietors create a culture that safeguards and promotes the welfare of children in our school. As part of this culture, it is important to adopt robust recruitment procedures that deter and prevent people who are unsuitable to work with children from applying for or securing employment, or volunteering opportunities in schools and colleges.

I agreed that the job description is a fair and accurate statement of the requirements of the job. I am committed to Fiveways safeguarding and promoting the welfare of children and young people and follow policies and procedures.

The job description, together with any agreed objectives, will normally provide the main criteria against which to evaluate a post holder's performance, through the schools Performance Management / Appraisal / TAPP (Teaching Assistant Progression Pathway)* process. I understand that Fiveways School adopts a rigorous approach and is committed to safeguarding and promoting the welfare of children and young people and expects all staff and volunteers to share this commitment.
